

## It's not just ink & paper anymore.

Let Bartash Printing put your cold-set web printed publications on the world wide web with live URLs as a Bartash **EDITION**.™

Print with Bartash and you get more than a great printing job. You get options. You get opportunities for success. You get the benefits of a partner that offers you the latest technology.

Now Bartash offers customization of your PDF print files into an animated, searchable Flash® format for posting on your website called Bartash **EDITIONS**.™

It gets better. The ads can have live URL links, giving you a marketable feature to boost your bottom line.

When the power of our web presses meets the power of the world wide web, it's the power of the web.<sup>2</sup>
